

Changes Within the Church

Roundtable with Chris Quintana, Roger Oakland, Barry Stagner and Xavier Reis discussing significant things taking place in our world today and within Christianity, in particular.

There is a rapid move toward ecumenism within the church and syncretism between all faiths, no matter obvious distinctions. This is bible prophecy 101 and it used to be a subject upon which the believing church could find common ground and excitement as it pointed to The Lord's Return.

For some reason, in many places, that excitement has grown cold and the zeal which should be reserved for this Blessed Hope is being met with indifference and apathy. Signs which in and of themselves testify of His soon return.
