

## Israel, You're Not Alone

From the Album Notes:

With the turmoil currently happening in Israel, Zac Waller was recently inspired by the words 'Israel, you're not alone'. As Christians living in the USA or around the world, we often feel that we must do something literal to help Israel, but at times feel helpless. How can we physically show our support? What can we do today?

With these thoughts in mind, Zac took the pen and began to write. A short while later, a song entitled 'Israel, You're Not Alone' was ready for the next step.

Feeling a challenge to release this song immediately, due to it's timely theme, Zac recorded a few scratch tracks on his own and then took the song to Nashville, TN. Within just a few days, a fully recorded, mixed, and mastered song was produced by a top quality studio in country music's capital of the world.
